M/s. John Taylor & Co.,  
The Bell Foundry,  
Loughborough.

Gentlemen,

Further to our Vicar's letter of the 13th ult., I have pleasure in informing you that the P.C.C. last night accepted your revised tender for the recasting and re-hanging of Deane Parish Church Bells. As the bells are now causing trouble in various ways, we have decided to cease all ringing from now on, and we should be pleased if you will commence work on them as early as possible.

On Sunday, June 20th. 1954, it is our Annual Sermons, and literally, thousands of people visit the church and churchyard. We were wondering about the possibility of having the bells down on the ground for that occasion, as we are sure it would be the means of raising a good sum of money towards our Restoration expenditure. If this can be done, I should be pleased to hear from you as early as possible, so that preliminary steps can be taken in the matter, and oblige.

Yours faithfully,
