

6. Manningham Rd
Deane,
Bolton.

Sept. 3/55.

Mrs. John Taylor & Co.

Dear Sirs,

I regret to inform you that the 2nd Bell locked itself at the Back Stroke during ringing practice on Thursday last. I eventually managed to pull it off, & found the stop arrangement for the STAY to be loose. I have stopped the ringing of this bell, & I would be glad if you will call at your early convenience, & put same in order, & also check up the rest of the bells. I may say I have found a number of nuts, bolts & greasers on the floor from time to time, & I would suggest that the whole should be carefully checked over, as it does seem that these have not been tightened up enough.

Thanking you in anticipation,
yours faithfully
M. Crook
